

HUDSONWAY  
IMMERSION SCHOOL

# After School Enrichment

Program 2022 - 2023

NJ Campus

We are excited to announce the After School Fall Enrichment  
Classes for School Year 2022-2023.  
Classes are to begin the week of September 12.

# Preschool Offerings (Age: 3-5 years)

## Preschool Soccer (Age: 3 to 5)

**Kiddie Soccer**

Kiddie Soccer is a fun-filled and age-appropriate soccer program for 3 - 6-year-old boys and girls. The instruction is built around thematic games that are fun and non-competitive, yet instructional. Our coaching staff consists of men and women who coach and play the game of soccer and are experienced in working with young children.

**Tuesday 3:45-4:30pm 13 weeks (September 13 - December 13) \$390**

## Robotics Discovery (Age: 4 to 6)

FIRST® LEGO® League introduces science, technology, engineering, and math (STEM) to young children ages 4-6 through fun, exciting hands-on learning. The Discovery program focuses on problem solving, persistence and teamwork.

**Friday 3:45-4:45pm 11 weeks (September 16 - December 16) \$490 (materials are included)**

## Spanish Language (Age: 3 to 5)

Our young students learn through the use of songs, games, art & crafts, movement, and role-playing activities in our after school immersion class. Students practice speaking, listening, reading, and writing in Spanish. Fun themes are adopted from our day school preschool program to ensure hands-on and interactive learning for young children.

**Wednesday and Thursday 3:45-5:15 pm 33 weeks (September 14 - May 31) \$2,950**  
**(Payment plans available)**

## Mandarin Language (Age: 3 to 5)

Our young students learn through the use of songs, games, art & crafts, movement, and role-playing activities in our after school immersion class. Students practice speaking, listening, reading, and writing in Mandarin. Fun themes are adopted from our day school preschool program to ensure hands-on and interactive learning for young children.

**Wednesday and Thursday 3:45-5:15 pm 33 weeks (September 14 - May 31) \$2,950**  
**(Payment plans available)**

# Elementary Offerings (Grades K-5)

## Little Inventors (Grade: K to 3)

**SPARK business academy**

Are you ready to innovate? Get your creative juices flowing in this project-based program, where you will identify the need for an invention, think on your feet, and create real structures and solutions. Each week students work in teams to complete a challenge building the highest free-standing structure, weight bearing bridges, and even simulate an oil spill clean up using everyday household items. Students also learn about famous inventors and internalize how recent innovations improve our lives

**Monday 3:45-4:45pm**

**12 weeks (September 12 - December 12)**

**\$480**

## Soccer (Grade: 1 to 3)

**Kiddie Soccer**

The goal of Soccer Excellence is for the children to learn the basics of soccer while also having fun and getting exercise. Various skills such as dribbling, passing, shooting and defending will be covered. Individual touches on the ball by each participant will be stressed as we are firm believers that the more touches a child has of the ball, the stronger and quicker their development will progress.

**Monday 3:45-4:45pm**

**12 weeks (September 12 - December 12)**

**\$360**

## Chess (Grade: K to 5)

**Growing Minds**

### **Beginner**

This class is for those students who are new to chess or have very basic knowledge of chess. We will learn how to unlock the skills needed to be successful in learning the game of chess. We will learn and apply the 3 P's: Pieces, Practice and Playing. Your child will learn through fun mini games, gamification and engagement.

### **Intermediate**

This class is for those students who have mastered the introductory chess topics and are looking to build on those foundations. Students will learn how to build and execute plans for each stage of the chess game. This class will also focus on examining classical chess games where the instructor will break down the concepts for the students to learn. There will be a "game of the day" selected by the teacher reviewed in the following class.

**Tuesday 3:45-4:45pm**

**13 weeks (September 13 - December 13)**

**\$520**

## Robotics Discovery (Age: 4 to 6)

FIRST® LEGO® League introduces science, technology, engineering, and math (STEM) to young children ages 4-6 through fun, exciting hands-on learning. The Discovery program focuses on problem solving, persistence and teamwork.

**Friday 3:45-4:45pm**

**11 weeks (September 16 - December 16)**

**\$490 (materials are included)**

## Robotics Explorers (Grade: 1 to 4)

The 1st-4th grade students will be using WeDo2.0 app, learning about flowcharts and coding to design, build and code a robot in real life scenarios.

## League Challenge Team (Grade: 4 to 8)

FIRST® LEGO® League Challenge is a global STEM program for teams of young people, to encourage an interest in real world themes and develop key skills that are crucial for their future careers.

Young people work together to explore a given topic and to design, build and program an autonomous LEGO® robot to solve a series of missions. We plan to participate in the competitions for Explore and Challenge expos/ Events where teams get to showcase what they learned. The Expos are all about showing off your work and team spirit. The competitions teach them valuable lessons - appreciation for their team members, how to work together as a team, innovation and implementation of ideas.

**Wednesday 3:45-4:45pm 10 weeks (September 14 - December 14) \$550 (materials are included)**

## Art Club (Grade: 2 to 5)

Please join us for our first HWIS ART CLUB. This will be an opportunity for students to expand their creative thinking in a social atmosphere. Students will be encouraged to work independently or in small groups with the support of a teacher. Basic materials will be provided, and students will choose what they will be making each week. The only limitation is the one-hour timeframe! Each week, students will take their work home at pick up.

**Thursday 3:45-4:45pm 8 weeks (September 15 - November 3) \$280 (materials are included)**

## Sculpture (Grade: K to 5)

**Walter Pineda**

Students will experience the process of creating and completing a sculpture project. Students will be introduced to sculpture design and learn how to use the tools and techniques to initiate a sculpture. Students will complete the development of the sculpture which includes baking and painting finishes.

About the teacher: Walter Pineda was born in the city of San Salvador, El Salvador. As a child, he enjoyed drawing and industrial art. For the past 40 years, he has enjoyed practicing sculpture and creating many different forms of art. He enjoys working with students and helping each child discover the artist within

**Thursday 3:45-4:45pm 5 weeks (November 10 - December 15) \$200 (materials are included)**

## **Drama Class (Grade: K to 5)**

**Practically Dramatic LLC**

Practically Dramatic LLC provides a dramatic arts program that promotes confidence, expression, and creative play through a nurturing, challenging, and fun program. Students will learn theater arts skills that will culminate in a performance of staged poetry. We look forward to working with your children to promote their confidence and creative expression!

**Friday 3:45-4:45pm 12 weeks (September 18 - December 16) \$600 (materials are included)**

## **Spanish Language Beginners (Age: 6+)**

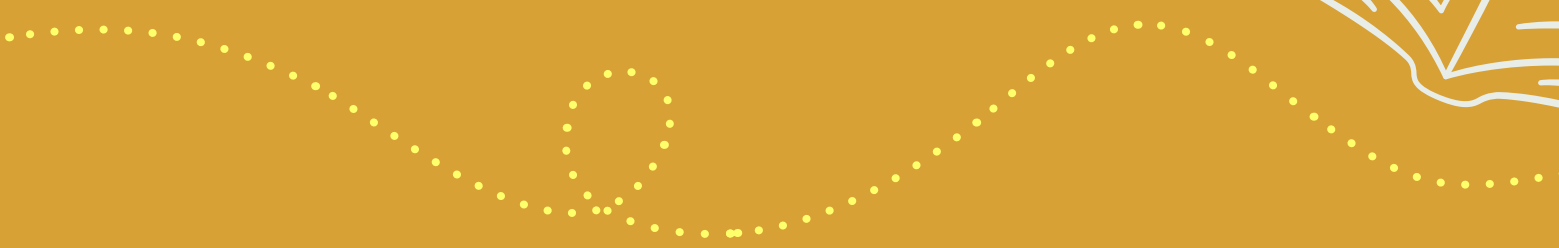

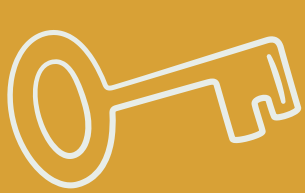

Guided by HWIS' innovative and proven immersion model, the after school program uses the project-based approach and theme-based curriculum to best support second language acquisition for students in elementary ages. Each class is designed with interactive learning activities, small group practices to ensure students enjoy the learning of Spanish. All areas such as listening, speaking, reading and writing will be focused in class.

**Wednesday and Thursday 4:00-5:30pm 33 weeks (September 14 - May 31) \$2,950**  
**(Payment plans available)**

## **Mandarin language Beginners (Ages: 6+)**

Guided by HWIS' innovative and proven immersion model, the after school program uses the project-based approach and theme-based curriculum to best support 2nd language acquisition for students at elementary ages. Each class is designed with interactive learning activities, small group practices to ensure students enjoy the learning of Mandarin. All areas such as listening, speaking, reading and writing will be focused in class.

**Wednesday and Thursday 4:00-5:30pm 33 weeks (September 14 - May 31) \$2,950**  
**(Payment plans available)**
